

Features of the product

1. Excellent driving performance

- High performance AC motor and precise motor control technology
- Low noise, low vibration and high torque within a wide range from low speed to high speed
- Design prevents the leaning of belt
- High tensile frame

2. Scientific exercise program

- Various built-in exercise programs (strengthening of cardiopulmonary function, body fat-burn, promotion of physical strength, etc.)
- Target-oriented built-in exercise programs
- Built-in exercise programs linked to the Heart rate with which the treadmill grade is automatically regulated

3. Convenient function for the manager

- Itemized manager modes are built-in (functional setting is suitable for the requirements of a club)
- Automatic oil-injection method

4. In consideration of the safety and convenience of the user

- Implementation of the low profile design
- Multiple impact mitigation systems (MSAS)
- Nano-Silver Antimicrobial Handlebar
- Touch Sensitive switch (regulates the brightness of lamp)
- Ergonomic design
- Two types of emergency switches
- Wider 2 shelves
- Convenient interactive operation method

Specification Table

Motor Capacity	AC 3.0HP, continuous duty (continuous rating)
Speed Range	0.1~21 Km/h, can be increased/decreased by 0.1km/h
Grade Range	0~15%, can be increased/decreased by 0.5%
16x32 Dot Matrix Size of Display Screen	96 x 192(mm)
Display of the Exercise Information 7 Segment FND	Exercise time, remaining exercise time, grade, consumed calories per hour, exercise distance, consumed calories, exercising speed, PACE (min/km), number of Heart rate
Heart Rate Measurement Touch Type Heart Rate	0
Heart Rate Measurement System Wireless Heart Rate	Option
Exercise Program Built In	5
Exercise Program Cardio	2
Exercise Program User Compilation	5
Exercise Program Target	Distance, calories, time
Communication Port	RS232C
Side Shelf	2ea (water bucket, MP3, Mobile, etc.)
Earphone Socket	0
Emergency Stop	Push button switch, magnetic Pull switch
Handlebar	Side, front
Side Guide Rail	Option
Running Area	520 X 1,590 (mm)
Oil Injection	Automatic and manual
Power Supply	Exclusively for 220VAC, 50/60Hz
Other Features	Electronic touch switch built into the lamp, aluminum support and non-slip, one-touch speed function, one-touch grade function
Manager Mode	Exercise time, maximum speed limit, indicated unit, pause time, accumulated distance, accumulated time, injected amount of oil, error indication, S/W version indication, clearance of the warning against oil filling
Permitted Load of User	185 (kg)
Length x Width x Height	2,161 X 900 X 1,518 (mm)
Weight	204 (kg)
